## LOCAL AND OTHER ITEMS.

### READING MATTER ON EVERY PAGE

### Weekly Advertisements.

Those who desire to have advertisements  
inserted in the *Weekly Empire* should hand  
them in by Saturday morning, at the latest.

Our advertising patrons will perceive that,  
by our arrangement of reading matter,  
their advertisements will be always seen—a  
very important matter to them.

See 4th page for Telegraph Reports.

See Masonic Notice—"St. John's Day."

See the advertisement of Mr. Baldwin in  
today's paper.

See "Closing out Sale," in another col-  
umn.

We are requested by our correspondent to  
say that Milwaukee contains fifty, instead of  
sixteen thousand inhabitants, as published yes-  
terday.

"444."—These figures belong exclusively to  
Broadway, N. Y., and peculiarly to half a  
dozen negro minstrel bands who are travelling  
through the country. Birch and Donker's min-  
strel band from 444, are now in Covington.

A grocery, writing from Mt. Pleasant, O., to  
the *Empire*, says: "The wheat is, I think,  
I may safely say, mostly destroyed." We saw  
a farmer from Morrow county Saturday, and he  
says the wheat is very little if any injured in  
that part of the State. The Commercial has a  
sensible corps of country correspondents.

THE YOUNG INDEMNITIES.—The boys Mackey  
and Slaght, arrested by Officer W. M. Clark on  
Saturday last, on a warrant charging them with  
having set fire to the stable of Mr. Bundy, in  
Oregon, (by which a son of Mr. B. was badly  
burned), are in jail awaiting an examination,  
which we learn will be had on tomorrow.

These boys are not unfamiliar with crime,  
having been arrested heretofore on criminal  
charges.

THE CORONER'S VERDICT.—The verdict of the  
Coroner's jury in the case of John Lehman was  
rendered yesterday. A large number of witness-  
es were examined, but no evidence was  
elicited which tended to place the shooting up-  
on any individual. The verdict was that Leh-  
man came to his death on Monday evening  
last, near the house of Mr. Schaffer, by a gun  
shot, fired by some person unknown to the jury.

THE AMATEUR THEATRICAL LADIES and gentlemen  
of this city, giving a complimentary benefit  
to Mr. Lester Donnelly, at Becker's Hall on  
next Saturday evening. The bill, chosen for  
the occasion is very attractive—"Damon and  
Pythias," "Sons of Malta"—a very interesting  
piece, which will "take," and will conclude  
with that side splitting farce—"The Irish  
Brogue Maker." Mr. Donnelly will sing that  
quint song—"The Irishman's Shanty."

Is cream will be presented to all the ladies  
who attend at the benefit. This is a new and  
very interesting item on the bill! Pass the word  
and let the Hall be filled.

THE RIOTERS.—Henry M. Goode, and Mat-  
thias Butt were yesterday afternoon put upon  
examination before Justice Owen, charged  
with shooting John Lehman, at Schaffer's, on  
Monday night week. Mr. Goode was discharged,  
after hearing the major part of the testimony;  
and the further examination of Mr. Butt  
was postponed until today. We were present  
a portion of the time yesterday, and failed to  
hear any thing which tended to convict any  
body of the shooting.

We learn, since we wrote the above that Butt  
has also been discharged, the prosecution not  
having made out a case against him.

EXHIBITION OF THE HUN SCHOOL.—The exhibi-  
tion of the graduating class of the Central  
High School, so long expected, will come off at  
Huston Hall this evening. We anticipate a  
very pleasant time, and we have no fears of  
being disappointed. Mr. Hall has very suc-  
cessfully directed the efforts of the pupils, and  
will deserve all the thanks tendered him for  
the pleasure afforded this evening. Parents  
and citizens generally are invited to be present.  
Children will not be admitted, as the Hall will  
hardly accommodate the adults who may de-  
sire to be present.

CARLOADS AND BOUGIES.—We called in at the  
old stand of Warren Phillips, on 4th street,  
east of Jefferson, yesterday, as we were passing  
and found the sale room so crowded with fine  
carriages and buggies, that we could scarcely  
make our way back to the sanctum of Warren.

We learn that the most of these very nice vehi-  
cles have been made to order—information  
which was confirmed by the appearance of two  
of the owners, who happened to call for their  
work while we were there. We never saw so  
much work as is now in the shop, and we have  
seen the best. The great secret of Warren's  
success is his employment of the best workmen  
upon the best material.

FRAGS AT CHAMBERLAIN.—On Sunday last a  
party of boys from this city went to Cham-  
berlain, a few miles north of this, in a carriage.  
After getting a "little warmed," a dispute arose  
between them and the men connected with the  
tavern, in which hard words passed, and ended  
in blows. The boys are said to have gotten the  
worst of the man, and left the place, "union  
down." A man named Alexander was fined  
\$5 and costs for assault on the parties.

DISTRICT OF THE PHILLIPS' HOUSE DRUG  
STORE, has long since established a reputation  
for being a first class dispenser of healing pre-  
parations and a clever man, of "infinite jest."  
He has now completed his arrangements for the  
best drug establishment in the west, and all he  
desires from the profession and the public is a  
fair trial of his store. He has a beautiful place  
and it is well worth a visit to see.

THE VARELLI correspondent of the  
New York Times says, that a large proportion  
of the most horrible stories of Austrian  
cruelty and barbarity, have their origin in  
the exaggerations of the spies who enter the  
allied camp and often overeat their part.

The Austrians are savage and brutal enough  
but there is a limit even to their inhumanity.

## N. W. District School House Again

In addition to the important consideration  
presented by our correspondent in yesterday's  
issue, in reference to the condition of the  
North Western District School House, we ac-  
certain the following facts:

The room occupied by the primary depart-  
ment was originally designed as a hall or  
breathing space for the inmates of the other  
parts of the house. It has been closed at both  
ends and contains forty two seats. There is of  
ten an attendance here of from fifty to fifty five  
scholars.

It has been ascertained that the chil-  
dren in this room will consume all the oxygen  
there in a little less than three hours, or  
short of a single morning session, and were it  
not for the imperfect means of ventilation by a  
single window on one side of the house,  
through which all the light and air which en-  
ter the room gains admittance—for the door  
has to be closed constantly to prevent annoy-  
ing the other departments; and the recesses dur-  
ing the session; results to the health and lives  
of these tender subjects would be disastrous.

As it is, many of the children thus confined  
cannot continue their attendance longer than a few  
days, without suffering seriously. Indeed, all  
emerging from the school room show the  
language of pain, and purple eczema, the poisonous  
effects of carbonic acid gas, which they have  
been compelled to inhale during their three  
hours of confinement. In addition to this, the  
healthy are forced to inhale and re-inhale the at-  
mosphere that has been inspired once or more  
times by those whose lungs are in a state of par-  
tial or complete disease; thus contribut-  
ing additionally to the contamination of the  
air in the room. Experience and observation  
have amply demonstrated that in the manu-  
facturing and metropolitan districts of Europe and  
this country, that these are among the most  
profitable sources of disease among children.

Now, if our baker should furnish to our chil-  
dren and families bread from which the nutri-  
tious element had been previously abstracted,  
how soon would we rise up in rebellion against  
such an iniquity; and yet this would be nothing  
more than is practiced upon the inhabitants of  
the N. W. District of this city, who send their  
children to the primary department of this  
school. The fact is, the inmates of the *Ragged  
School* of Fifth St., enjoy better privileges for  
health and ventilation than the son or daughter  
of the opulent citizen of the N. W. District.

To night the city council will be waited upon  
by a committee of the Board of Education,  
asking the issue of Bonds, for the erection of a  
building suitable to the requirements and de-  
mands of the educational interests of this part  
of our city, and the council will be requested to  
grant it if it fails to grant the request of the  
Board of Education. It is urged by some that  
our city expenses are at present far too great.  
That is just the ground upon which we would  
urge that the prayer should be granted. More  
money will be required to hire extra rooms out-  
side of the present school houses to accommo-  
date the scholars for the next year, than will  
pay the interest on the bonds. On general prin-  
ciples, we always argue in favor of a simple  
and economical expenditure. To those who  
oppose this sentiment, we would refer them to  
the annals of penitentiaries, jails, prisons,  
almshouses and police stations. Nine-tenths  
of the unfortunate inmates of these institutions  
are devoid of the commonest principles of edu-  
cation.

ATTENDED VIOLENCE.—Last evening about 8  
o'clock, Olinthus Hagan, (now on trial to answer  
to the charge of burglary,) entered the hat store  
of Mr. H. B. Brown, on Main St., opposite the  
Court House, and menacingly demanded of  
him if he had told Mr. Folkert of this city that  
he (Hagan) was a thief. Mr. B. did not re-  
member to have said so to Mr. F., but he be-  
lieved him to be a thief. Whereupon Hagan  
pulled out a pistol, but before he could use it,  
Mr. Brown grasped his arm with the grip of a  
determined man who was aware of the danger  
he was in, and prevented him from using the  
weapon. Hagan finding he was foiled, retreated  
to the front door, Brown the while, kept his  
hold upon him until they got out on the pave-  
ment, when Hagan wrenched away and ran  
down Third St. to the Keifer corner where he  
was arrested by Officer Van Doren, with the  
assistance of others of the police. He was  
then taken off to jail in a hurry. Had the true  
state of affairs been known at the time by the  
people who were assembling in large force, it is  
highly probable that Hagan would have been  
very roughly handled, to say nothing more.  
The general impression is that he intended to  
put Mr. B. "out of the way," as the grand jury  
will meet this week, and pass upon the cases of  
those charged with committing the burglary of  
Mr. B.'s store.

FISHING TACKLE.—The season for bass fishing  
has now fairly begun, and it is high time that  
those who are fond of the sport, and who can  
find time to indulge in it occasionally, should  
supply themselves with good tackle, without  
which no one need expect to have success. If  
a person would catch bass, he must have the  
best fishing tackle. The reason why so many  
fail in catching fish is that they have worthless  
lines, hooks, etc. Get the best you can find,  
and you will then stand an even chance with  
the best fishermen. Bass cannot be caught  
with a chalkline and a piece of crooked wire;  
nor can they be taken with a short rod, which  
will not allow the line to reach them by any  
fair play. Get a good rod, reel, best quality  
line and hooks, and then go to the river. Get  
good bait, and then use enough line to reach  
the fish, and you will not return with an un-  
lucky "no fish; don't see why I can't  
catch 'em; So-and-so is catching fish, but I  
can't get 'em, somehow"—but you will take  
fish, just because you have the tackle suitable  
for taking them. The healthiest sport to be  
obtained in this country is fishing; and all who  
can ought to go to the rivers and ponds as often  
as they can for that purpose. Langdon &  
Bro's, Main St., above 3d, have everything in  
the line that you can desire for the enjoyment of  
the sport—jointed rods, reels, every kind,  
hook, line of every quality, minnow seines,  
and every other conceivable "help" for the fish-  
erman. Go there while their assortment is full—  
they know just what you need, and will  
rig you with a first class fishing outfit at low  
figures.

THE CINCINNATI Commercial says Douglas  
has little prospect of getting the nomination of  
the Charleston Convention. It is of opinion  
that Breckinridge will be the nominee. We  
have no objections. If the Commercial will  
arrange the matter, we prefer that it nominate  
a good man. The people will elect him.

CHANGE OF NAME.—The old and familiar  
name of "Phoenix" has been changed to "Beck's"  
and the House will hereafter be known  
by that name. "Beck's House"—that sounds  
well.

COOPER SEMINARY.—FLORAL CONCERT.—  
The young ladies of Cooper Seminary will  
give a "Floral Concert" at Huston Hall on  
Thursday evening of this week. This is, in-  
deed, a rare announcement, and pleasing as  
rare. It is suggestive of the beautiful and  
the sweetly harmonious, and will be received  
by our citizens with favor and meet with  
a hearty response. The entertainment will  
be at once the most unique and delightful  
ever projected and given in our city, and we  
anticipate a very pleasant time.

The opera chosen for the occasion, is a  
composition of George F. Root, "The Flow-  
er Queen, or Coronation of the Rose," one  
of the most exquisite pieces of music ever  
presented. We bespeak for the Concert a  
large attendance.

The proceeds are to be applied in aid of  
building a Callisthenic Hall, for the physi-  
cal training of the young
